

PLANT DESIGNS EVENTS

Plant Designs foundations are rooted in an extensive knowledge of plants and horticulture.

We are experts in using the experiential power of plants to enhance events and create unique experiences, whether this is through live planting, preserved or even replica foliage. Our dedicated team design, install and maintain displays to ensure that your brief is brought to life, whatever the event may be.

“The event wouldn’t have been the
same without the artistry of the
Plant Designs team ”

Debrah
Senior Communications Manager

WHO WE ARE

Our growing Events department is made up of a team of multi-talented set designers, creative producers, dedicated installers and of course horticultural experts, all specialising in plant-based décor and event installations.

Whatever you have in mind, Plant Designs are on hand to take the project from the initial design stages all the way through to your live event.

Designs tailored to you

Trusted suppliers and growers

Produced in-house

Stress free on-site installation

End of event de-rigging

At Plant Designs we cover every base; whether you need green backdrops adding to your space, on-trend preserved florals and foliage or even something completely bespoke to enhance your event. Whatever ideas you may have in mind, our creative team of designers are on hand to bring them to life.

GREEN

From our plants to our ethos, at Plant Designs we aim to be truly green in every design we create.

With temporary and single-use décor being a huge contributor to waste in the events industry, we think it's more important than ever to offer eco-friendly options such as live planting and natural materials. Display collection and rehoming are key parts of our event hire process and we aim to re-use all components of our designs.

Not only that but we source all of our plants and materials from eco-friendly growers who hold the same values as us, ensuring that our process is as green as possible from the get-go.

GET IN TOUCH

Whatever the event, get in touch today to find out how Plant Designs can bring it to life.
